aggressor augers

Baumalight Auger Drives and Aggressor Augers: a twin team for drilling success

Teeth: Optimize your drilling efficiency with 40/50 dual angle teeth. Featuring Pengo's triple locking system that allows your teeth to stay secured at either the 40° or 50° angle

Pilot Bit: Triflow three drill points for 50% longer wear and better drilling stability.

Tree Augers: Plant basketed trees easily and efficiently with tree augers. Auger symmetrical, tapered holes, plant your tree, then backfill all of the fine loose dirt to give your trees optimal chances at survival.
