

# BAUMALight

Turn your  
tractor or  
skidsteer  
into a

## Brush Mulcher

Using our powerful, rugged BaumaLight brush mulchers, you can effectively mulch large areas of brush and felled treetops without lifting a twig.

Brush mulchers take the hard work out of clearing brush. Attach the MF648 to your skidsteer for powerful mulching on low-flow hydraulics. Or use the PTO-driven MF860 for ultimate cutting power and unrivalled clearing capability.

## MF648 Hydraulic Driven

### Features:

- ▶ Powerful mulching on low-flow hydraulics (12-25GPM)
- ▶ 104 carbide-tipped teeth for longer tooth life, smoother operations and much finer mulch. Teeth can be installed in the field.
- ▶ Safety pusher bar to push trees and brush away from the mulcher and operator as they are being cut
- ▶ Rugged timer belt for long durability
- ▶ Control all functions from skid steer seat
- ▶ Ships with universal skid steer plate and flat-face hydraulic quick couplers

### Specifications:

*Unit weight:* 1,250 lbs.

*Unit dimensions:* Cutting width—48"

Overall width—62", Height—56"

*RPM:* Rotor RPM—1,200

carbide-tipped teeth

### Maximum Recommended Brush Size

hydraulics:	12gpm	15gpm	20 gpm	25gpm
2,500 psi	1"	1¼"	1½"	2"
3,000 psi	1¼"	1½"	2"	2½"
double all sizes for intermittent cutting				

## MF860 PTO-Driven

### Features:

- ▶ Direct drive for the ultimate cutting power
- ▶ 126 carbide-tipped teeth for longer life, smoother operation and finer mulching. Teeth can be installed in the field.
- ▶ Safety pusher bar to push trees and brush away from the mulcher and operator as they are being cut
- ▶ Rugged timer belt and heavy-duty gearbox for long-term durability

### Specifications:

*Unit weight:* 1,550 lbs.

*Unit dimensions:* Cutting width—60"

Overall width—75"

Height—58"

*Tractor HP:* Min—45, Max—70, Cat II

*RPM:* Rotor RPM—1,800

Input RPM—540

### Maximum Recommended Brush Size

If drive system on tractor is	45HP	60HP	70HP
in regular gear	3"	4"	5"
in creeper gear	5"	6"	7"
with hydrostatic transmission	8"	10"	12"
double all sizes for intermittent cutting
